

After Final Amendment And Request For Reconsideration

Please amend the above-referenced patent application as follows:

In The Specification

In response to the request for a substitute specification pursuant to 37 C.F.R. §1.125(a), mailed September 8, 2000, Applicants provide a copy of the specification, as originally filed, in Appendix A. Applicants submit that the alleged typographical errors that the Examiner objected to in the specification are not in the specification as originally filed. For example, the Examiner objected to FIGS. 5 and 6B as allegedly failing to comply with 37 C.F.R. §1.84(p)(5) because symbols θ_1 of FIG. 5 and θ_2 of FIG. 6B allegedly are not mentioned in the description. Applicants respectfully traverse the Examiner's objection: θ_1 of FIG. 5 is disclosed, *inter alia*, in paragraph 51 and θ_2 of FIG. 6B is disclosed, *inter alia*, in paragraph 52 of the original specification.

The Examiner objected to the drawings as allegedly failing to include "angle I" in all its various forms. Applicants respectfully traverse the Examiner's objection: Applicants submit that the original specification does not include "angle I" in any of said various forms.

In The Drawings

The Examiner objected to FIGS. 5 and 6B as allegedly failing to comply with 37 C.F.R. §1.84(p)(5) because symbols θ_1 of FIG. 5 and θ_2 of FIG. 6B allegedly are not mentioned in the description. Applicants respectfully traverse the Examiner's objection: θ_1 of FIG. 5 is disclosed, *inter alia*, in paragraph 51 and θ_2 of FIG. 6B is disclosed, *inter alia*, in paragraph 52.

The Examiner objected to the drawings as allegedly failing to include "angle I" in all its various forms. Applicants respectfully traverse the Examiner's objection: Applicants submit that the specification does not include "angle I" in any of said various forms.
